Raw loft space in Soho is 5,000 sq ft, has a full cyc, the main areas measures 60' x 24' x 12' with 15 windows on the west and north side. The windows measure 9' x 5' and make the space extremely bright with strong bounce all day from the warm brick of the building across the street to the West and the white cast iron facade of the building across the street to the North.

There is angled direct sun from the West in the afternoon.

Electrically controlled blackout shades. Equipped with 3 phase, 200 amp power with 220v outlets for strobe and HMI. Note the industrial hooks in the ceiling, suitable for light rigging or taking body weight.
