Notes

Film possible

Lovely Spring street apartment, 2-story converted loft in a quaint pre-war cast iron building on a side street in the heart of SoHo. The 1800 sq ft / 550 sq meter apartment has very high (20 ft/ 6 m) ceilings, large windows to the North and South and a large skylight, all of which make the apartment very sunny.

On the first floor, a keyed elevator opens up into a dining area. A full bath is off to the left. In the back is a cozy living room situated under a large skylight. The second floor has another living area. There is an open guest room/alcove with a double bed. This room is also situated under the skylight.

Please note this is a true loft which means there are no bedroom doors.

The upstairs bathroom includes double sinks, a sauna, a jacuzzi tub, and a shower stall. There is a full washer/dryer, iron and ironing board.

Carpet, hard wood floors, piano, skylight, exposed brick, colorful.

Restrictions do apply.
