Notes

Prefers print

This beautiful West Hampton home has stunning grounds

Some changes have occurred: The structures are essentially the same, but many of the garden materials and layouts have changed or matured. The croquet court furniture is now all beautiful wrought aluminum chairs and tables, and the lawn is pristine. The "folly" pavilion area by the tennis court no longer has the flowering plants covering the top of it. The downstairs interior rooms of the main house have been updated and redecorated. Scouting recommended.

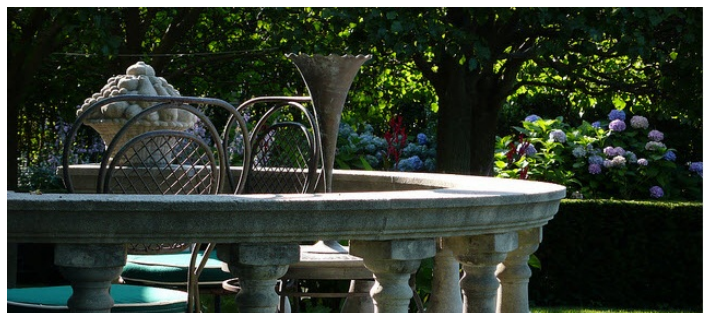

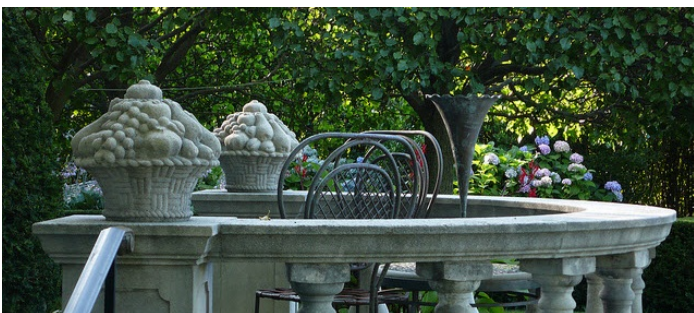

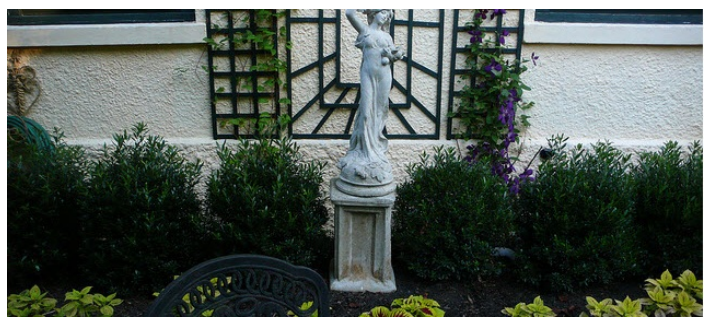

Plants, statues, pool, wrought iron gate, big yard, outdoor sitting area, patio, hammock, tennis court, wood floors, chandeliers, colorful, loft, pedestal sink, tiled bathrooms, wallpaper

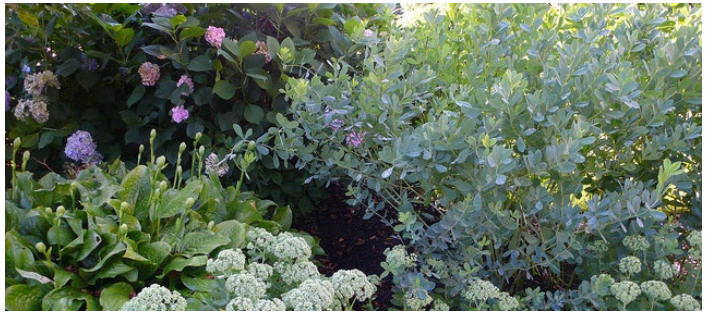

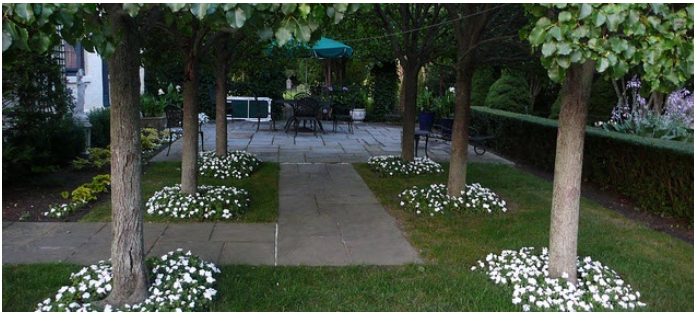

Restrictions:

All floors must be protected, booties must be worn over shoes

Areas of use determined in advance

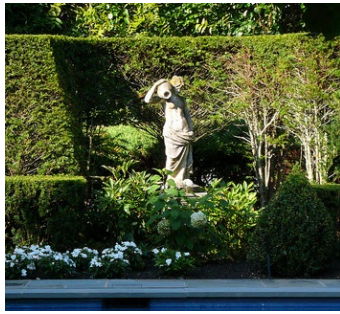

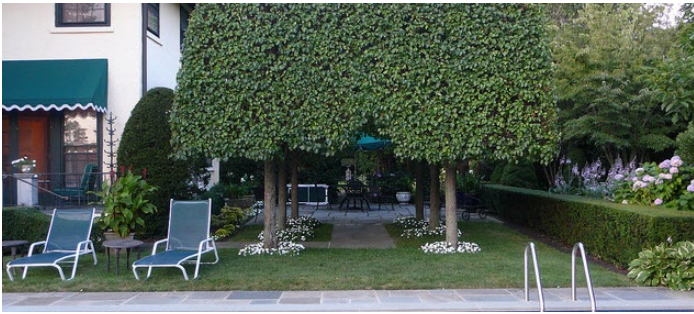

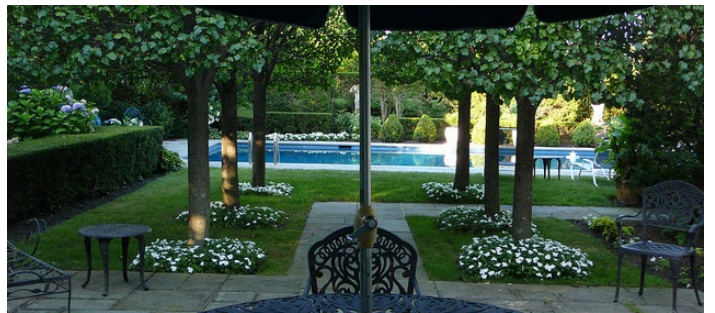

TENNIS COURT + CROQUET
