## Notes

This landmark estate is reminiscent of gracious Southern living. A circular drive lined with shade trees approaches the columned porte-cochere. Fireplaces and extensive millwork highlight the dining room, living room and pecan library. A leaded glass vestibule opens to the grand foyer featuring a cloak room, powder room and sweeping mahogany staircase to the second floor. The master bedroom has raised paneling and custom walk-in closet with cherry built-ins. Three additional bedrooms and two full baths complete the second story. The third level offers a fifth and sixth bedroom, full bath and two walk-in attics. The mahogany veranda offers sweeping lawn views of floral gardens and in-ground pool.

Scouting recommended - new owners and furniture changes
