## Notes

### Film friendly

Beautiful home built in 1712, oldest private residence in the tristate metro area. It's in wonderful condition with a lot of character.

2 parlor rooms, a sitting room, dining room and kitchen on the first floor, 4 bedrooms, an office, small library, TV/family room and two bathrooms on the second floor. Attic has a studio space. The basement is large raw cement/stone - kind of creepy.

All original wood floors, doors, details. 5 fireplaces on the first floor as well.

The home is on the national historic registrar

### **Restrictions:**

All floors must be protected, booties must be worn over shoes

Areas of use determined in advance
