Notes

Film friendly

This is a luxury cabin in the woods. The main house is a log cabin and has an outdoor porch with rocking chairs, an inground pool, a logging trail that goes above behind house, very wooded with a long driveway and a lot of room for parking.

Main house is furnished in a rustic style with high end features. Basement has a sauna. Fireplace in living room. Lot of log details on railings. Wide floor boards. There is a barn outside that has 6 stalls with a hayloft. There is a riding ring with 2 horses. The barn is rustic and worn in.

Across the street on the owner's other property is a river. There is a railroad track that you must cross to enter the driveway. The train is a freight train that usually goes by once a day during around 8-10PM. River rd is a dirt road and also part of a bike path. Very rarely traveled. Property is in a very private and quiet location.

Cabin, cathedral ceiling, stone fireplace, wood panel

Restrictions:

All floors must be protected, booties must be worn over shoes
