Fence, Fields, Greenhouse, Rustic, Woods

 CATEGORIES

Event Space, Farm, Store / Showroom

Notes

A working diversified vegetable farm in Brookhaven, spanning 14 acres of fields in production of various veggies, flowers, fruits, and herbs. We have a variety of outbuildings including our rustic metal roofed farm stand, several plastic greenhouses, and a pole barn for storing our tractors and equipment.

The landscape of the farm changes dramatically over the seasons, and is a great place to capture the essence of the natural and cultivated beauty of a farm as it goes through the seasons of the year. Although we are nestled in a rural suburb, the farm itself is very rustic and minimal resources of water, electric, and bathroom (there is a port-a-potty on site).

Parking lot can accommodate 50+ cars.

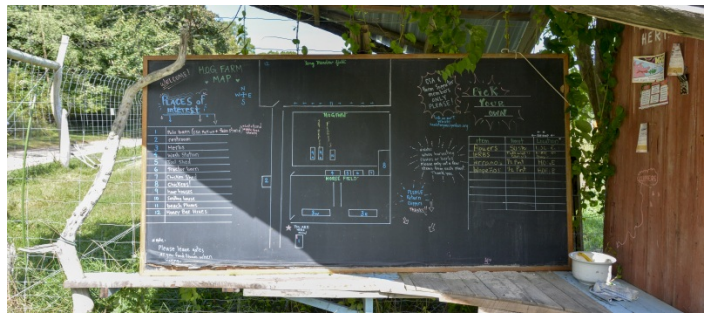

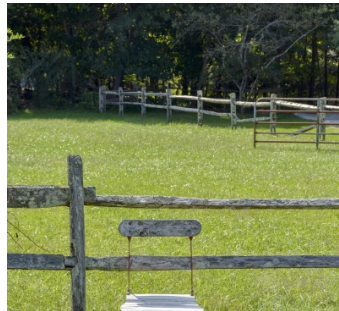

Restrictions:

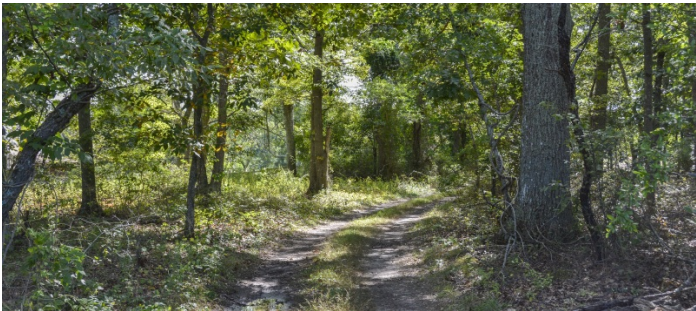

The farm is off-grid, we currently have limited electrical supplied by solar panels, and irrigation water from several private wells.

Certain field areas may be off-limit during growing season. Please inquire !
