Notes

The bar is housed in a landmark building from 1883, elegantly designed with subtle nautical undertones mixing old world with a modern touch. The warm lighting was custom designed and made from old sailcloths.

The bar itself is about 16 feet long. The front part of the restaurant has a long banquette with tables and chairs. There are five booths and small marble tables along the back wall. There is also a small private room off to the left with banquettes along the 3 walls.

Kitchen area can be used for catering set up.

Restrictions:

No filming after midnight.

No nailing into walls. No painting of walls.
