Notes

Art gallery in a black brick building with a notable glass front, which can be opened to accommodate large-scale load-ins. It is a modern, minimalist white-walled gallery, with light wood floors and concrete 15 ft ceilings in on the ground floor.

There are two main exhibition rooms on the ground floor, spacious and without furniture, in addition to two basement exhibition rooms with slightly lower ceilings. The ground floor of the gallery additionally has one smaller, white walled viewing room, and a large meeting room equipped with a bookshelf, table and chairs, and some other minimal furniture alongside a showcase of rotating artworks from our represented artists. Stairs lead up to adjoining offices with work stations and desks.

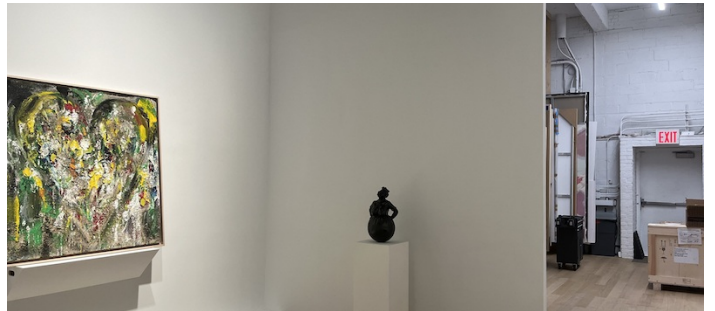

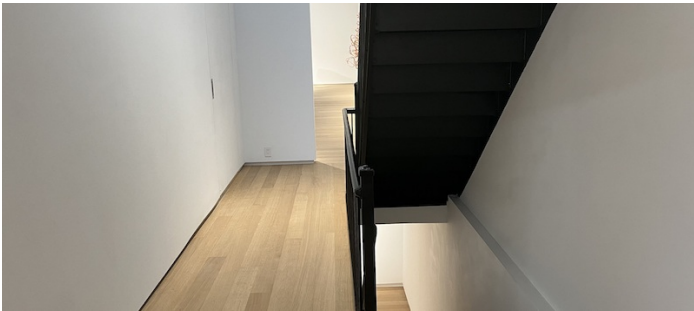

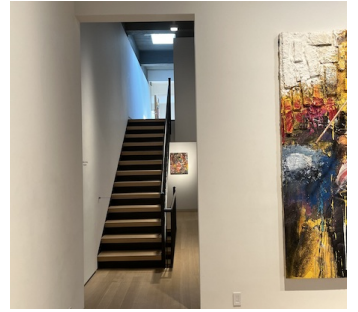

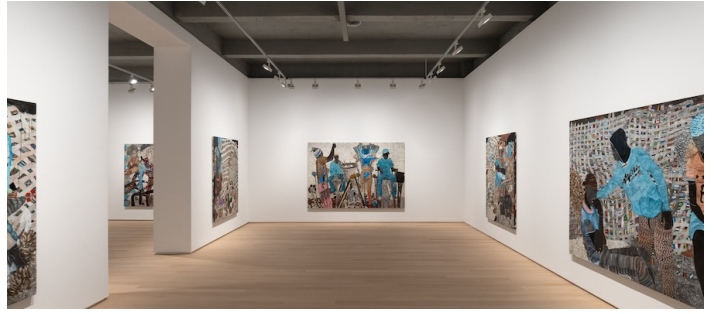

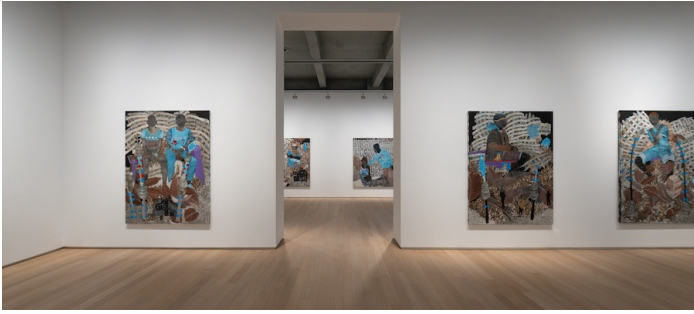

Due to it's simplicity and functionality as an art gallery, the space is easily transformed and often adapted for various exhibitions. The gallery presents contemporary art from a program of international artists, with rotating exhibitions every six weeks.

Restrictions:

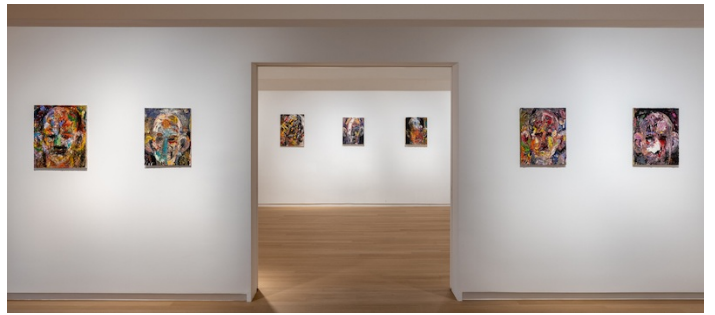

Artist clearance required in advance if photographing/filming artwork.

Moving of artwork must be handled by professional art handlers.

Catering must be set up away from artwork (kitchen is best).
