## Notes

1700's Farmhouse on five acres of meadow in a quiet hamlet in Northern Westchester County. There are mature trees, a Belgian block patio with a pergola, a classic red-painted barn (that doubles as a garage), and a pea gravel driveway. This lovingly restored colonial features several bedrooms, a movie room, a formal living room, a playroom, and a distinctive kitchen/dining room in a rich painted blue. There's a white cast iron AGA oven, arabescato marble countertops, a freestanding pedestal bathtub and claw foot tub in the kids bath, an original fireplace, and a mix of antiques and collected furniture that creates a cozy and refined country environment.

The home has been renovated and decorated by interior design studio White Arrow and published in The New York Times.
