Notes

6,800 square foot mansion on two acres built in 1906 in the French Chateau style.

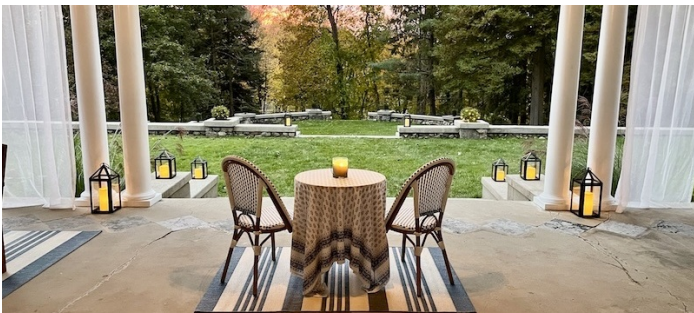

The home features an immense great room with two-story windows that overlook the grounds, an intimate living room complete with a stone fireplace, a large dining room with seating for 10, a rustic wood-paneled den which opens on to a beautiful stone patio, and an oversized kitchen with high end appliances and two islands. Upstairs there are six bedrooms and five bathrooms, all generously sized.

The living room opens onto a stunning veranda featuring stately columns and wide steps leading down to two grassy terraces surrounded by lush landscaping and stone walls. The home has an attached two-car garage and there is a dilapidated cottage on the property that is currently being used as a shed.

Access to the home is via a large circular driveway with plenty of parking for crews (fits 15-20 cars).
