Notes

Waterfront mid-century modern masterpiece boasting 180 degree views of Long Island Sound.

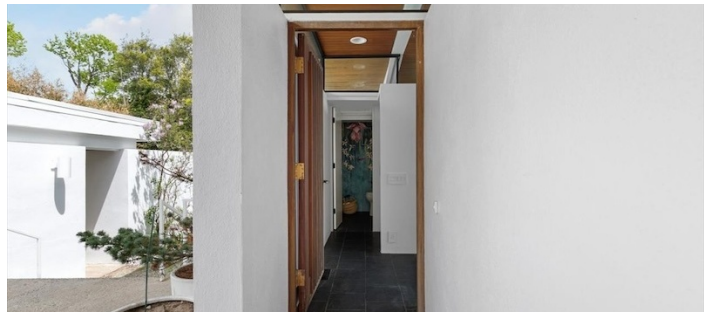

Built in true modernist style by architect Vincent C. Amore, the house sits atop three vertical wood trusses with incredible use of floor to ceiling glass and steel. Other features include: floating staircase, 3 bedrooms, and 2-1/2 bathrooms. The dining area with oversized sliders leads to a full wrap-around deck with access to natural rock cropping.

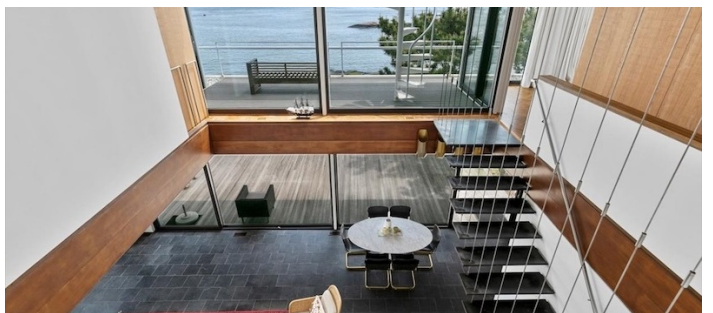

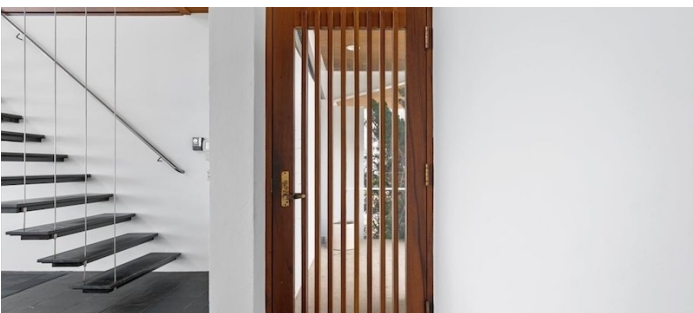

Restrictions:

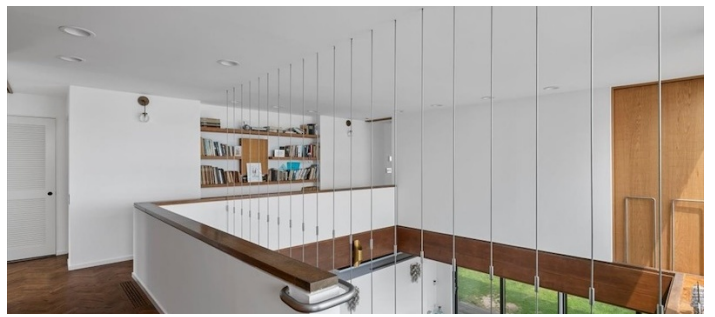

No painting or nailing into walls.

Prefer small shoots - no more than 20 people inside unless special permission.
